

HYDROLOGIC WORKSHOP

USGS Kentucky District Office

Mark your calendars for

Wednesday, October 29, 2003

9:30a.m. – 3:00p.m. (lunch provided)

Located at 9818 Bluegrass Parkway, Jeffersontown, KY 40299

What are the workshop objectives?

- Demonstrate the latest approaches for monitoring real-time streamflow and water quality, for flow measurement and streambed characterization with acoustic methods, for modeling flow and sediment transport, and for studying karst
- Learn about GIS tools for watershed and hydrologic analysis
 - Provide an opportunity for you to network with others

Who should attend?

- Current and/or interested partners with the USGS
- Water-supply managers, water-resources advocates
 - Federal, State and local engineers and planners

For more information and to register contact:

Judy Green -- email: jcgreen@usgs.gov -- phone: 502-493-1907

On line agenda, map, and other information will be at:

<http://ky.water.usgs.gov/hydroworkshop.htm>

Hello all,

Advanced Announcement:

The USGS Kentucky District Office is hosting a [Hydrologic Workshop](#) to demonstrate our latest approaches to monitoring, measuring, modeling, and GIS. Although the agenda is not fully developed yet, the workshop will have informational talks, discussion, and actual demonstrations of the equipment used. The general subjects will include:

- Monitoring real-time streamflow and water quality
- Acoustic methods to measure flow and characterize river/lake sediments
- Modeling flow and sediment transport
- GIS methods to characterize watershed systems, including karst

The workshop also will be structured to provide an opportunity for you to network with others who share your interests. So, mark your calendars now for [Wednesday, October 29, 2003](#).

This email will be resent at a later date when the full agenda has evolved. Please forward to others you know may be interested. Thank you.

Mark Ayers, District Chief

**Registration Form – email this form to jcgreen@usgs.gov
or phone in the information to Judy at: [502-493-1907](tel:502-493-1907) or mail to
